Dear Mr. Takagi,

Thank you for your interest in the City and County of Honolulu's (City's) RFI 001. The intent of the RFI is to provide a mechanism for the City to gather information on various fixed guideway transit vehicle technologies without going through a formal procurement process. The information submitted in response to the RFI will assist the City in selecting the technology on which to base environmental analyses for the Honolulu High-Capacity Transit Corridor Transportation Project. Manufacturers were under no obligation to respond to this RFI in order to participate in future procurements.

Attached are the RFI issued on December 5, 2007 and Addendum #4, which includes the City's responses issued in Addenda #1 - #3. Marubeni Corporation is welcome to submit an information package but it is possible that the information will not be included in the evaluation.

The City received 12 submittals representing all the technology options identified by the Honolulu City Council. See Honolulu news at: <http://www.honolulu.gov/csd/publiccom/honnews08/transittechnologyrfi.htm>

If you wish to place Marubeni Corporation on the City's contact list for future procurements, please submit the following information:

MARUBENI CORPORATION

Dear Mr. Takagi,

I have referred your question to the City and County of Honolulu's Division of Purchasing. A response should be forthcoming shortly.

Subject: Honolulu Transit Project

Dear Mr.Mark Scheibe

How are you? I was informed that Request for Information(RFI) was closed on Jan.24.
Please explain whether there is any possibility that Honolulu City can accept our proposal to RFI, if we submit at this stage.
Actually we have not submitted any response RFI to Honolulu City, because we missed the information on the RFI.
So if Honolulu City can accept, we are willingly to submit our proposal to them.
Kindly give us your comment or advice to the above.

Best regards,
K.Takagi
Marubeni Corporation
